Abstract

In this report, ...
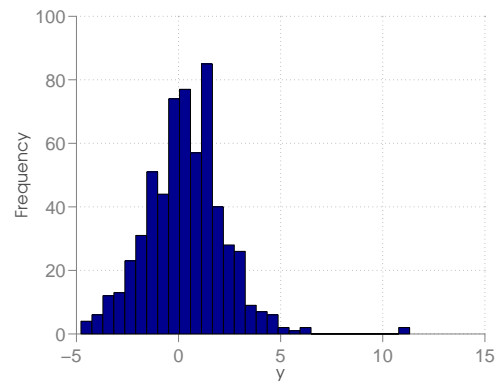

1   Data Description

Our train-data consists of ...

2   Data visualization and cleaning

We performed basic exploratory data analysis on our data. Figure 1(a) ...

(a) Boxplot of real-valued $\mathbf{X}$. Data is not centered and therefore we normalize it.

(b) Histogram of $\mathbf{y}$. We can clearly see two outliers.

Figure 1:

3   Ridge regression

We applied least-squares and ridge regression to this dataset...

4   Feature transformations

We tried several feature transformations...

5   Summary

In this report, we ...
